Preferred Standard Features

Karman has been building a traditional face frame cabinet for nearly 60 years in Salt Lake City. We have always stuck to the idea of when in doubt, overbuild it. That is why you will see our starting point begin with Soft Close integration, Galvanized Steel Corner Braces and no plastic in our Preferred Line of Cabinetry.

Frame

Galvanized Steel Corner Braces

Metal Shelf Pins. No plastic used in construction features

Face Frame – 3/4" Solid Hardwood. Castle pocket screwed and glued

Ends – 1/2" Thick Industrial Grade Furniture Core, Maple Grain Hot Pressed Laminated Sheet Material, Interior and Exterior

Tops & Bottoms – 1/2" Thick Industrial Grade Furniture Core, Maple Grain Hot Pressed Laminated Sheet Material, Interior and Exterior

Backs – 1/2" Thick Industrial Grade Furniture Core, Maple Grain Hot Pressed Laminated Sheet Material, Interior

Fully Adjustable Shelves

Fully Adjustable, 3/4" Thick Industrial Grade Furniture Core, Maple Grain Hot Pressed Laminated Sheet Material Both Sides with Matching Front Edge Material, Full Depth

Hinges

6 way adjustable, soft close

Solid Hardwood Drawers

Four-sided 5/8", Dovetail joined Solid Hardwood

Mounted on Full Extension, Soft Close, 100 lb. capacity drawer guides

Finish

Durable Catalyzed Conversion Varnish

Paint

Catalyzed process where pigmented primers and topcoats are chemically bonded to the paint layers

Preferred Upgrade Options

All Plywood Construction

Ends, Tops, Bottoms, Backs, Shelving all Upgraded to Plywood Construction with Natural Wood Veneer Interior and Exterior

Designer Drawers & Rollouts

These gorgeous solid dovetail sculpted boxes add a unique look. Profiled interior roll-out trays have 3-sided sculpting. Hand crafted drawer, built, sanded and finished after assembly.

Legrabox Metal Drawer & Rollouts

Stunning Blum drawer boxes are a bold contemporary option. Optional Tip-On Blum Motion Available

Drawer Front Upgrades

Trapani Standard Features

In 2014 Karman ventured into the world of European Inspired Cabinetry. We had the opportunity to build a product from ground up with the designer and customer in mind, while keeping to the tradition of building a cabinet with all the robust features you see in our framed cabinet. It is 3/4" construction with a wood edge band used on the face of the cabinet as standard. Soft Close integration is our starting point but there is much more we offer beyond that.

Euro Overlay

1/8" top and bottom, 1/16" sides, leaving a full 1/8" all around when cabinets are combined

Metal Shelf Pins. No plastic used in construction features

Face – Wood Edge Band is Standard

Ends – 3/4" Thick Industrial Grade Furniture Core, Maple Grain Hot Pressed Laminated Sheet Material, Interior and Exterior

Tops & Bottoms – 3/4" Thick Industrial Grade Furniture Core, Maple Grain Hot Pressed Laminated Sheet Material, Interior and Exterior

Backs – 1/4" Thick Industrial Grade Furniture Core, Maple Grain Hot Pressed Laminated Sheet Material, Interior

Stretchers - 3/4" Thick Industrial Grade Furniture Core, Maple Grain Hot Pressed Laminated Sheet Material, Interior and Exterior

Fully Adjustable Shelves

Fully Adjustable, 3/4" Thick Industrial Grade Furniture Core, Maple Grain Hot Pressed Laminated Sheet Material Both Sides with Matching Front Edge Material, Full Depth

Solid Hardwood Drawers

Four-sided 5/8", Dovetail joined Solid Hardwood

Mounted on Full Extension, Soft Close, 100 lb. capacity drawer guides

Finish

Durable Catalyzed Conversion Varnish

Paint

Catalyzed process where pigmented primers and topcoats are chemically bonded to the paint layers

Trapani Upgrade Options

Decorative Laminate Veneer, High Gloss Acrylic, Ultra Matte Acrylic & ION all have specific construction features. Please see your designer for details.

Inset Cabinetry

Choose from 6 attractive inset framing options to create a truly impactful kitchen.

Flush

Standard inset style where the door sits even with a square frame.

Beaded Inset

1/4" rounded bead added around the inner frame edge.

Beaded Inset

3/8" rounded bead added around the inner frame edge.

Sculpted Chamfer

1" thick frame with 45° beveled profile added around the inner frame edge.

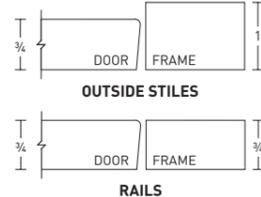

Sculpted Ogee

1" thick frame with Ogee profile added around the inner frame edges.

Stepped Inset

The frame is built with 1" thick sides and 3/4" thick horizontal members.

Specie & Finish Options

Solid hardwood products are shaped by natural forces and may display a variety of character markings and colors. Color variation is influenced by moisture, exposure to sunlight and mineral content of the soil. Grain patterns are affected by changes in climate, growth rate, damage, as well as soil conditions.

Each wood specie has unique features such as density, colors and grain patterns.

Finish Enhancements

Utilize Karman's enhancement program to provide your cabinetry with an "aged look".

Distressing

DISTRESSING

Includes random dents, nicks, rasp marks, worm-holing, bird-pecking and sanded or uneven edges.

VINTAGE

Natural wear simulated by sanding edges and corners after paint finish has been applied.

OLD WORLD

Heavy distressing, corner rub-through, and glazing combine for a rich, well-loved appearance.*

Sanding

PENCIL EDGE SANDING

Subtle effect created by sanding the outside and detail edges of painted doors to expose the wood below.

LIGHT BRUSH STROKE

Simulated brush strokes are achieved via light sanding of the paint along the grain prior to glazing.*

HEAVEY BRUSH STROKE

Simulated brush strokes are achieved via heavy sanding of the paint along the grain prior to glazing.*

BISQUE

A special brown glaze, accents, and sand-through are applied to a painted finish.

Glazing

HIGHLIGHT GLAZE

Hand-applied technique adds a light- to door details with a thin line.

ANTIQUÉ GLAZE

Glaze is wiped on and off, leaving lingering glaze in the open grain and details of the door.*

FRONTIER GLAZE

Full-bodied, premium glazing process creates a handsome, sophisticated effect.*

HERITAGE GLAZE

Heavier glaze, with larger amounts of hang-up within details and corners to achieve an aged look.*

*The underlying color will be altered when the glaze is applied to the surface

Paint Colors

Our Standard paint selections have been carefully chosen to match the more popular trends in color today. Our paint-grade Maple and pigmented conversion varnish top-coat technology combine to assure a smooth consistent finish. We also offer two flexible color customization programs to help you go beyond the norm and become your own color trendsetter.

Classic Select Program

Karman offers a flexible Classic Select paint program using the Benjamin Moore Classic Color chip deck. Choose from any of the more than 1,800 available colors. You are sure to find one that achieves the look of your dreams.

Custom Finish Program

Getting just the right feel in your home design is not always that simple, and truly customized finishes are not easily found. This program allows the flexibility to modify current finishes or to submit samples and swatches for consideration of color matching in either stain or paint. Wanting to match a particular stain or favorite finish technique? Your Karman Dealer can help make it happen.

CRAFTING QUALITY FOR THE PAST 50 YEARS

OUR PEOPLE

At Karman our people are our number one asset. It's not just a slogan— this is who we are. Our average employee tenure is 18 years & the people leading the way have been the backbone of this organization for over 50 years. Plus our Management Team are some of the most experienced in the industry so you'll love working with them.

CRAFTSMANSHIP

We are Karman, we overbuild it; from the most rigid face frames in the industry to features like: dovetail drawer construction, full-extension soft-close drawer guides, steel corner brackets, & 6 way adjustable soft-close hinges. Karman cabinets are built to withstand the toughest household environments.

SELECTION

Karman has the products to fulfill nearly every need a customer could want in a remodel or luxury new construction scenario; from nearly 100 standard door styles in 17 wood species, 1800+ paint colors, over 100 standard modifications and our Full Custom Program. If you can dream it, Karman can build it.

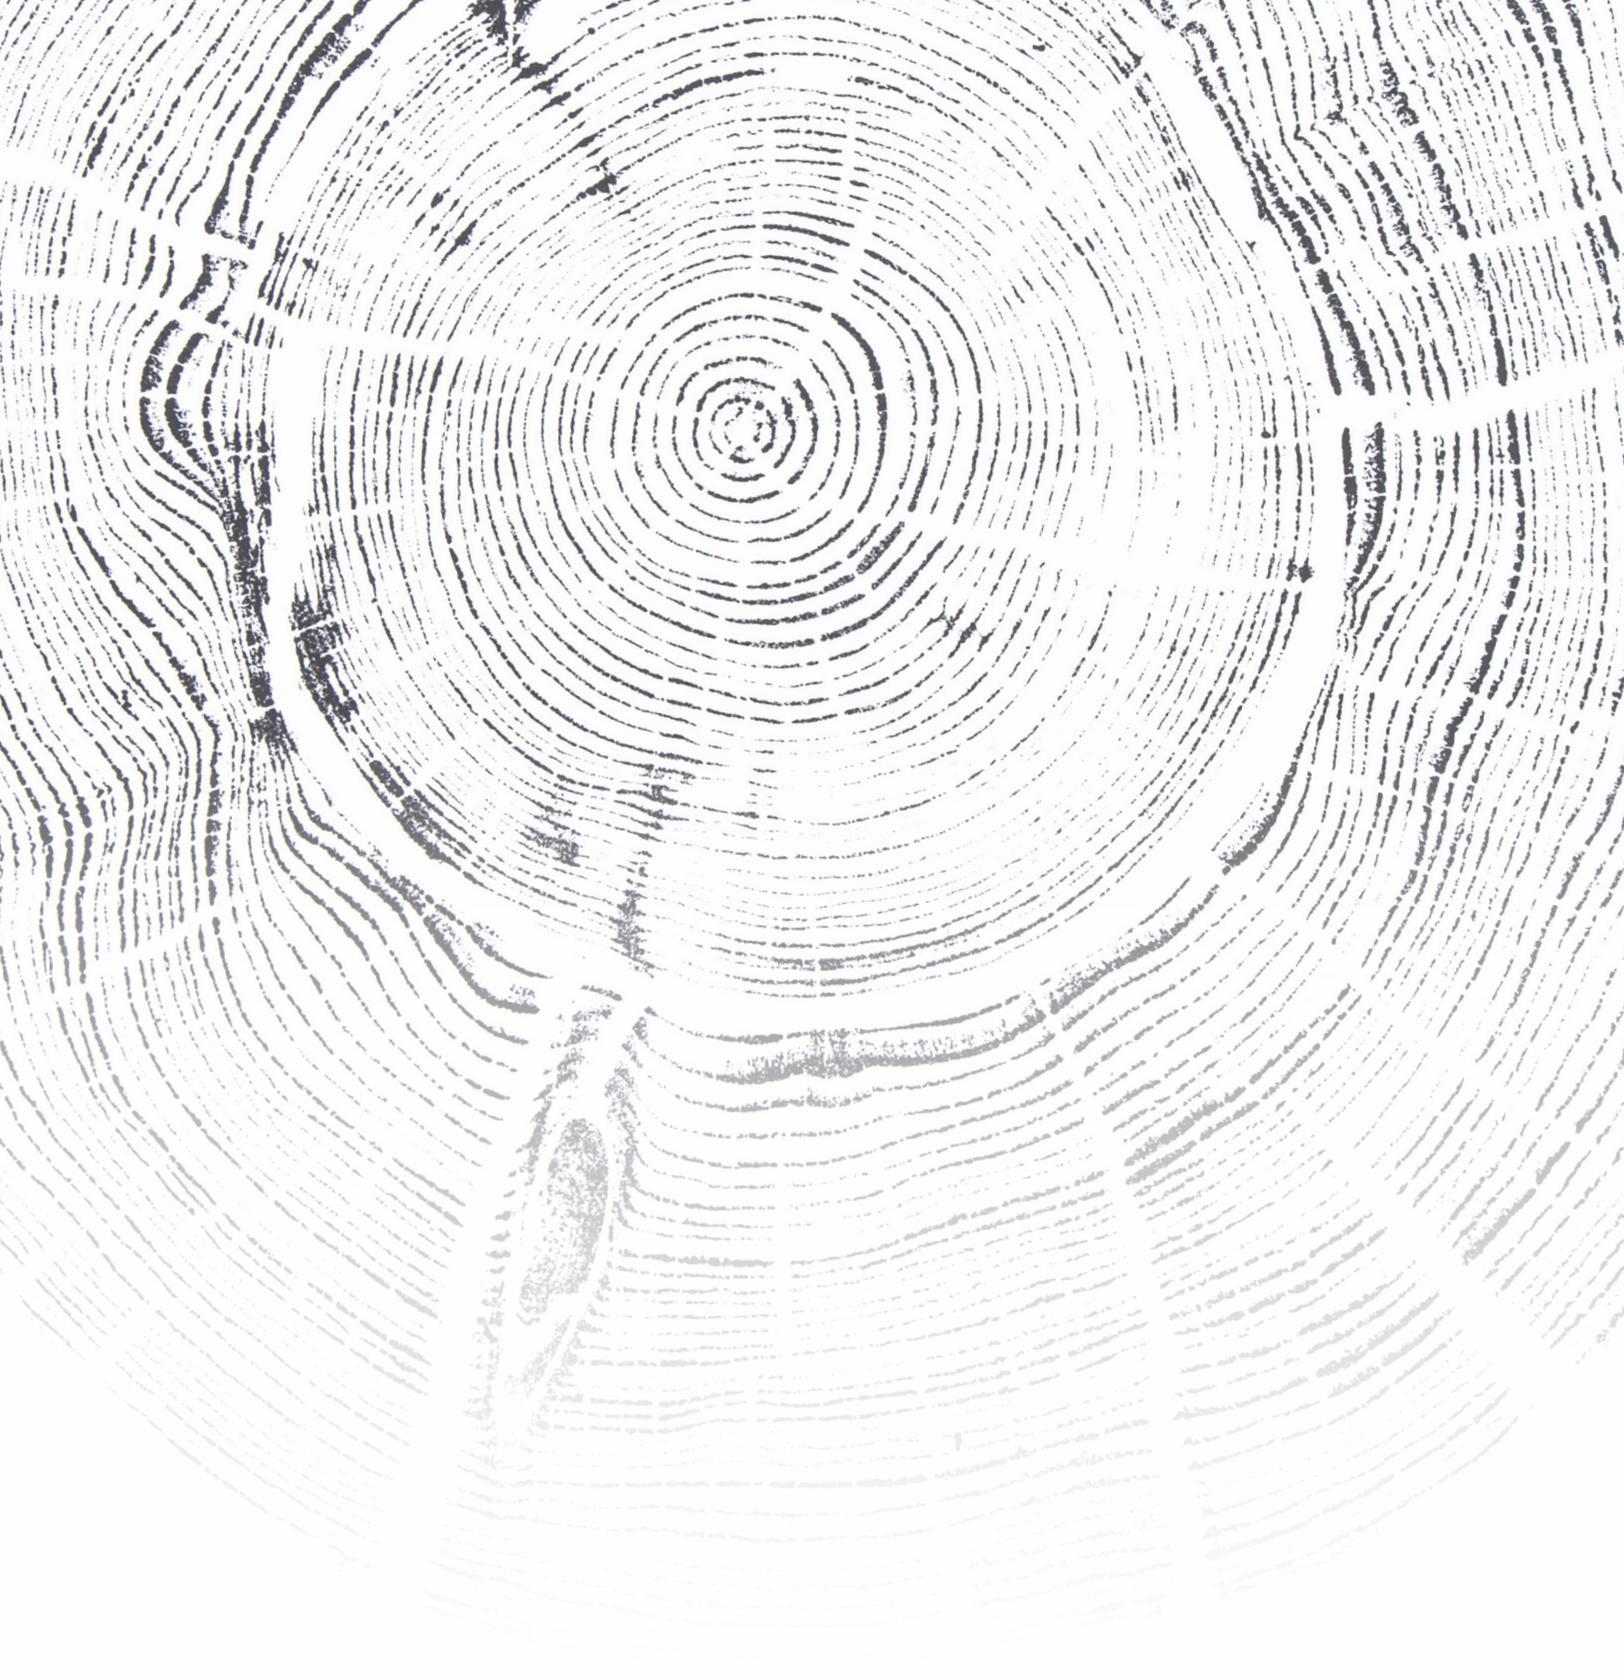

SERVICE

Our products & processes are easy to understand. KarmanQuote.com, our cloud based pricing & ordering tool, & searchable price book are intuitive and 100% accurate. We also offer some of the most competitive lead-times in the industry.

Deliver consistent quality on-time; while we work every day to exceed our customers' expectations.
